

Cable tray reverse wrapping

Overview

Option 1: Reverse wrap the splice initially with Scotch® Super 33+™ Vinyl Electrical Tape, adhesive side out. Protects wires and cables from abrasion, sharp edges and chafing. Bind-It is a selfwrapping sleeve that is very quick and easy to install and remove. The core fibers inside this FireMaster Cable Tray Wrap are made using Morgan Advanced Materials patented Superwool®, low biopersistent manufacturing technology. FireMaster Cable Tray Wrap is offered standard with full encapsulation in a durable glass fiber reinforced aluminum. Our spiral wrap organizes and protects wires and cables with a lightweight, flexible design that allows for easy access and customization, ideal for various applications. Then add a mastic tape like Scotch® Rubber Mastic Tape 2228, to moisture seal, and finish with. The “wrapping” offer of Altrad Services is deployed in the nuclear sector, especially when it comes to carrying out all the fire protection around cable trays. Our wrapping offer comes from the synergy resulting from pooling together the expertise of the two companies BAUMERT and ALTRAD SERVICES.
