

Dual-port information panel for broadcasting is resistant to low temperatures

AI Overview

Industrial-grade dual-port information panels, such as the Zhaolong ZW862KJ and RUGGEDCOM series, are designed to maintain reliable operation in low-temperature and harsh environments.

Overview of Dual-Port Panels

Dual-port information panels, like the Zhaolong ZW862KJ, are wall-mounted network faceplates that support two keystone jacks for structured cabling applications. They are compatible with Cat5e, Cat6, and Cat6a modules, making them suitable for Ethernet, voice, and data transmission in commercial offices, schools, data centers, and broadcasting setups . These panels provide organized cable termination, high-frequency signal support, and flexible configurations for easy installation and maintenance .
