

Fiber optic routers offer fast upload speeds

Overview

A fiber optic router is a device specifically designed to take advantage of the high speeds and reliability of fiber optic internet. These routers are capable of transmitting data at speeds of up to 1 Gbps, making them ideal for demanding applications such as streaming in 4K or. Fiber internet delivers the fastest speeds — up to 5Gbps. Many major ISPs, such as Verizon and Xfinity, offer fiber connections directly to your door, known as FttP or Fiber. Our top overall pick is the Netgear Nighthawk RS700S, a Wi-Fi 7 router built for multi-gig fiber plans that handles up to 200 devices across 3,500 square feet. For budget-conscious households, the TP-Link Archer AX55 delivers reliable Wi-Fi 6 performance without the premium price tag. Note. Fiber internet offers significantly faster upload and download speeds compared to traditional broadband connections, making it essential to pair it with a capable router to maximize performance.
