

How are Croatian galvanized cable trays

Overview

These metal trays, coated with a special zinc shield, resist rust and last a long time, even in tough environments. They keep your wires tidy, cool, and protected, from power plants to your next building project. We, one of the leading Galvanized Cable Tray Manufacturers in Croatia, bring trays. After more than 60 years of work and activities in the metal processing industry, Metalis is today recognized manufacturer in the market. Gersan also manufactures all kinds of. According to the National Electrical Code standard of the United States, a cable tray is a unit or assembly of units or sections and associated fittings forming a rigid structural system used to securely fasten or support cables and raceways. We also offer a range of cable ladder systems for heavier cable support.
