

Huawei Drop Fiber Optic Cable

Overview

As an industry leader in optical connectivity products, Huawei designs and manufactures the Mini SC assembly with factory-terminated, environmentally sealed and hardened connectors to reduce the cost and the time of drop cable deployment in optical access networks. With Huawei's core concept for ODN construction centering on full and dense coverage coupled with short and easy access, Huawei's ODN 3. In the earliest FTTH solution, ODN 1.0 optical splitting was used for. Dowell 2-in-1 Fast connector (Corning Optitap, Huawei Mini SC Compatible) is used on distribution boxes (adapters) and pre-terminated drop cables. It is compatible with SC-APC polishing type. Mini SC APC Patchcord is made of special plastic shell IP68 (which is small and easy to install with IP67 grade water dust proof and corrosion resistant). Cable diameter range: 2.0mm. FTTH drop cable cabling is a professional fiber optic patch cord factory in China. Assembly without glue, grinding, and electrical tools, is widely used in the construction section, the place needs to quickly connect, to provide a fast and stable connector for the operation.
