

# Manufacturer of custom-made fiberglass cable trays

## AI Overview

Several manufacturers specialize in custom fiberglass cable trays, offering corrosion-resistant, non-conductive, and high-strength FRP systems tailored to industrial needs.

### Leading Custom Manufacturers

Uniflex provides fiberglass cable trays with the load capacity of steel while being non-conductive, non-magnetic, and corrosion-resistant. Their trays are available in polyester and vinyl ester resin systems, meeting ASTM E-84 Class 1 Flame Rating and ASTM D-635 self-extinguishing requirements. They offer custom molding for a wide range of shapes, sizes, and hardness ranges, ensuring precise tolerances and economical pricing for specialized applications. MP Husky has over 30 years of experience supplying fiberglass cable trays for harsh environments, including offshore oil and gas. Their pultruded FRP trays are lightweight yet stronger than steel, resistant to corrosion, and transparent to radio waves, radar, and microwaves. Custom colors and resin systems are available, and their products are designed to meet stringent ASTM standards. Creative Composites Group manufactures Enduro FRP cable trays designed for extreme conditions such as chemical plants, refineries, and water treatment facilities. Their GRP systems are highly durable, impact-resistant, and corrosion-resistant, with extensive quality testing and design capabilities to meet custom industrial requirements. Renyun (Hunan) Busbar Co., Ltd. specializes in custom fiberglass cable trays, providing factory-direct solutions with CE certification. They focus on delivering tailored FRP cable management systems to meet specific project needs.
