

New Solution for Honduras 4U Switches

Overview

HR3900 is a new generation of high-performance, high-density aggregation switch launched by Hualink for data centers, with a switching capacity of 12.8Tbps, provides 32*400GE ports or 128*100GE/40GE or 64*40GE or 25GE/10GE ports, supports rich data center features and enhanced Layer 2 and 3. The NC8400-4TH switch supports a maximum of 128x 40G/100G, or 64x 40/100G with 16x 400G high-density ports through flexible line cards combinations of NC8400-32C and NC8400-16CD. It's optimal for spine deployments in large data centers, HPC, service providers and cloud providers. Huawei's comprehensive portfolio of products and solutions enables you to realize smooth digital transformation and rapid growth of virtualization, Big Data, and cloud services. Huawei switches already help customers achieve success in industries such as finance, Internet, retail, education.
