

New Territory Alloy Cable Tray

Overview

Clear cable routing – Organized and safe cable management, easy maintenance, helps prevent failures. Strong and durable – Made of hot-dip galvanized steel or stainless steel, suitable for indoor and outdoor applications. Whether specifying a major new project, refurbishing existing facilities or doing the engineering, procurement and construction (EPC) for your end user, with T&B Cabletray, ABB offers reliable solutions duly conforming to ASTM A123 & ISO 1461 : m. ECTRAY offer a wide range of perforated cable trays which are fabricated using quality raw material such as Zinc Aluminum Magnesium (ZAM). Cable trunking is fully enclosed cable support and protection systems, and are one of the three main types of cable trays. There are several types of cable trays, including ladder, perforated, solid bottom, basket, and channel trays. Each cable tray type performs a different function and comes in various materials such as aluminum. 1- Ladder Cable Tray: Ideal for heavy-duty power distribution, these trays offer superior strength and support for large cables. SFSP cable trays and accessories from SFSP are manufactured from steel sheets in accordance with BS EN 10130/BS EN 10131/ BS EN.
