

Price of Dedicated Outdoor Cable Trays

AI Overview

Outdoor cable trays typically range from \$20 to \$150 per meter depending on material, design, and load capacity.

Price Factors

The cost of dedicated outdoor cable trays varies based on several key factors:

- **Material:** Galvanized steel is the most cost-effective option, while stainless steel (304/316) is more expensive but ideal for harsh, corrosive environments. Aluminum trays offer lightweight and corrosion-resistant alternatives.
- **Design and Type:** Ladder-style, perforated, or fully enclosed trays differ in price. Ladder trays are common for heavy power cables, while perforated or mesh trays provide better ventilation and airflow.
- **Load Capacity:** Trays designed to support heavier cables or longer spans generally cost more. Ensure compliance with standards like ASTM, BS, or IEC.
- **Corrosion Resistance:** Premium coatings or stainless steel construction increase upfront cost but reduce long-term maintenance.
- **Customization:** Non-standard sizes, bends, or finishes can add 10-25% to the base price.
- **Supplier and Volume:** Manufacturers often offer better unit pricing than trading suppliers. Bulk orders reduce per-meter cost, while low minimum order quantities provide flexibility for smaller projects.

Typical Price Range

- Basic galvanized steel trays: \$20-\$50 per meter
