

Price of High-Voltage Fiber Optic Cable Junction Box

AI Overview

High-voltage fiber optic junction boxes typically range from \$500 to \$3,000 or more, depending on specifications, materials, and certifications.

Price Factors

The cost of a high-voltage fiber optic junction box depends on several key factors:

- **Material and Construction:** Boxes are often made from 316L stainless steel with thicknesses from 2mm to 6mm, fully seam-welded, and may include electropolished or painted finishes. Heavier-duty materials and finishes increase the price .
- **Certifications:** Explosion-proof or non-sparking certifications (Ex e II 2 GD T6, Ex nA II 3 GD T5) for hazardous environments add to the cost .
- **Ingress Protection (IP) Rating:** IP67 or IP68 designs for water and dust resistance are more expensive than standard enclosures .
- **Size and Capacity:** The number of cores (e.g., 6 or 8 cores) and entry points (top, bottom, or multiple ways) affects pricing .
- **Temperature and Fire Ratings:** Boxes rated for extreme temperatures (-55°C to +120°C) or fire resistance (up to 950°C for 3 hours) are higher in cost .

Typical Cost Range

- **Small indoor or wall-mounted high-voltage junction boxes:** Approximately \$500-\$1,000.
