

S7706 Internal Network Core Switch Components

Overview

The Huawei CloudEngine S7706 is a high-density modular chassis switch designed for enterprise-scale networks. The price includes only the 1 × integrated chassis, and all additional components, such as main control boards, service modules, power supplies, and fan modules, must be. The S7706 chassis is 10 U high (1 U = 44. When the chassis has no cable management frame installed, the dimensions (H x W x D) are 441. Figure 4-21 and. ei S7706 Assembly Chassis. Innovative Cluster Switching System (CSS) 4. Hardware BFD and Ethernet OAM 5. The S7700 design is based on Huawei's intelligent multi-layer switching technology to provide intelligent service optimization methods, such as MPLS VPN, traffic analysis, comprehensive H-QoS policies, controllable multicast, load. In an S7703 chassis, the main control unit can be installed in slots 04 and 05.
