

Surface-mounted distribution box with 20 circuits

Overview

Surface-mount power distribution box with smoked PC viewing door and brass N/E bars. IP50 indoor protection; clean knock-out entries; DIN-rail pre-installed. For example, you can choose from transparent or. CJDB series distribution box, also called distribution board, is mainly composed of the casing and modular terminal apparatus, suitable for ac 50/60Hz, and rated voltage of 230V. The load current is less than 100A single-phase three-wire terminal of the circuit. We use it to control power. Siemens low voltage meter load center combination factory installed main breaker 20 (1 inch) spaces interior allowing max 40 circuits. Special features: OH/UG feed, ring type cover, surface mounting. Additionally, they're designed to meet UL 67 and NEMA PB1 standards for use in data centers, industrial.
