

The router s fiber optic cable turns red every now and then

Overview

If there is a red light, please check the yellow fiber patch cable with green tips connected to the back of the unit. This guide will walk you through what the LOS light means, why it blinks red and step-by-step instructions on how to resolve the issue, including resetting your router. What Does the LOS Light Indicate?

The LOS light on your router indicates the status of your internet connection to the Internet. That blinking red LOS light means your router has lost its connection to your internet provider's network. The LOS light on your router stands for "Loss of Signal. You may also need to verify that the outlet is receiving power.) If there is. Fiber optic networks are celebrated for their speed and reliability, but even the best systems can encounter problems.
