

# Tonga Optical Cable Investment Project

## Overview

We're working with the Governments of Tonga and New Zealand to build a new international undersea telecommunications cable to Tonga. The project will see the construction of a 383-kilometre long cable from a branching unit on the Hawaiki Cable to the existing cable. With reliable digital connectivity vital to Tonga's economy, the AIFFP is working with partners to provide critical redundancy for Tonga's undersea cable network. It is 827 kilometres (514 mi) long and was activated in 2013. It has cable landing points at Sopo, a suburb of Nuku'alofa in Tonga, and Suva, Fiji. As reported on Matangi Tonga, Tonga's domestic fiber-optic submarine cable suffered another outage following a series of strong earthquakes, including a 6.8 magnitude quake centered in the Ha'apai group. According to Matangi Tonga Online news, Australian and New. Tonga Cable Limited is a public enterprise, we are 80% owned by the Government, providing reliable, safe and affordable high speed internet as its core service. Tonga Cable Limited was formed in November 2009, with approval of Government of Tonga, to build and manage a submarine fibre optic cable. The Tonga-Fiji Submarine Cable Project will provide a submarine fiber optic cable system linking Tonga to Fiji where an existing international submarine cable system will provide onward cost-effective access to the rest of the world.
